DİLLER

Turkish **Ana Dil**

English **Profesyonel Yetkinlik**

TEKNİK YETENEKLER

Flutter

Figma

Java

C#

PROFİL

Flutter developer and full time computer engineering student with months of experience from personal projects.

With the start of my education, I have started my journey with Python and C. With my own interests and curiosity, I went on to learn **Android Dev** with **Java** for 5 months and finally I landed on cross-platform development with **Flutter/Dart**. You can find my example projects and personal growth on my **github** profile.

EĞİTİM

Bilgisayar Mühendisliği, Lisans Derecesi, 3. sınıf   2020/2024

GPA: 3.35/4.00

ÇALIŞMA GEÇMİŞİ

Flutter Developer Stajyeri @ Coreborn   Haziran 2022 – Temmuz 2022

-Developed Flutter apps and resolved issues in Flutter projects.

-Worked closely with **GraphQL**, **Hasura**, **Heroku**...

-Wrote **Medium** posts about work I've done.

-Used **Git** extensively; opened and closed issues, created and merged pull requests as needed.

Sezonluk Kasiyer/Çalışan   Haziran 2020 – Eylül 2020
Mayıs 2021 – Eylül 2021

PORTFOLYO

English Dictionary App ⬈   Flutter/Dart

-A multi-screen english word bank app with built-in pop quiz.
-Used packages: **sqflite**, **provider**, **http**...

Instaclone App ⬈   Flutter/Dart

-A complete working clone of Instragram powered with Firebase.
-Used packages: **provider, firebase_auth, firebase_core, firebase_storage, permission_handler, flutter_screenutil**...

Simple Todo App ⬈   Flutter/Dart

-A simple todo app built by me at my Coreborn internship. The goal was to be familiar with GraphQL engines, Hasura and Heroku.
-Used packages: **provider, graphql, numberpicker, flutter_svg, fluttertoast, flutter_screenutil**...
